Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Inventorship

In view of the papers filed on 12 February 2004 (Paper Number 9), the inventorship in this nonprovisional application has been changed by the deletion of James M. Rasmussen and Wayne H. Rothschild.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

Election/Restrictions

Applicant's cancellation of claims 6-52 resulting from election without traverse in Paper No. 5 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 53 are rejected under 35 U.S.C. 102(a) as being anticipated by Japanese Patent Application Publication Number JP-2000-312774-A. The coin dispensing arrangement disclosed by said publication incorporates outlet 26, coin guide

Art Unit: 3653

32 and coin tray 12 (see Figure 1) that read on the Applicant's coin outlet, guiding arrangement and coin tray, respectively. Furthermore, said arrangement incorporates a moveable member 30 (see Figure 12) that reads on the Applicant's moveable member.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 55 is rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese Patent Application Publication Number JP-2000-312774-A as explained above. Although the said publication fails to specifically disclose a biasing means to switch moveable member 30 to the disabled position, such an element is an obvious design choice that would be used to provide unobstructed discharge of coins from the coin slot and would be known by one of ordinary skill in the art at the time of the invention.

Allowable Subject Matter

Claims 4 and 5 are allowed. Claims 2, 3 and 54 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
